To the Council Members of
Hilton Local Development
Corporation, New York

In planning and performing our audit of the financial statements of the Hilton Local Development Corporation, New York as of and for the year ended December 31, 2014, in accordance with auditing standards generally accepted in the United States of America, we considered the Hilton Local Development Corporation, New York's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control. Accordingly, we do not express an opinion on the effectiveness of the Corporation's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Corporation's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Prior Year Deficiency Pending Corrective Action:

Accounting Records –

Our examination revealed that a formal balance sheet indicating the LDC's assets, liabilities, and net assets is not currently being prepared.

We recommend the LDC prepare a year-end balance sheet which includes the assets, liabilities, and net assets of the Corporation.

Prior Year Recommendations:

We are pleased to report the following prior year recommendations have been implemented to our satisfaction:

1. The Village is currently utilizing vouchers to document the authorization of expenditures.
2. The responsibilities of reconciling the bank accounts is segregated from the maintenance of the bookkeeping duties.
